

# BASIC OPERATION GUIDE

This guide provides basic operational instructions pertaining to the components, devices, or equipment that may be installed on your motorhome. Please refer to the component manufacturer owner's manual for safety, troubleshooting, maintenance, and more detailed operating information.

Made to fit.

## Monitor Panel

COMPONENT MANUFACTURER: KIB Electronics

### BASIC OPERATION

Conveniently located just inside the main entry of the motorhome, the monitor panel contains several useful features and system controls. Although monitor panels may vary by motorhome model and available features, in their basic form, the monitor panel provides these functions:

- Generator START (ON)/STOP (OFF) switch and hour meter
- Slideout EXTEND and RETRACT switch
- House (auxiliary) battery condition
- Fluid level Monitoring of the holding tanks (full to empty)
- Propane level within the LP tank
- Water heater ON/OFF switch
- Water pump ON/OFF switch
- Holding tank heaters ON/OFF switch (optional on some models)

To monitor the fluid level within the holding tanks, propane level within the LP tank, or monitor the energy level of the auxiliary batteries:

1. Press and hold the Selection Buttons that corresponds to the tank (holding or LP) or battery
2. One of the 4 LED indicator lights will illuminate, indicating an approximate level of a tank or an approximate charge condition of the auxiliary battery

Typical Monitor Panel

### ⚠ WARNING

**Extinguish all pilot lights and igniters anytime the motorhome is in motion or refueling. This is accomplished by turning OFF the water heater, all propane appliances, and the propane gas supply (at the propane tank valve).**

LED Condition or Level Indicators

Battery Condition  
L = Low  
F = Fair  
G = Good  
C = Full Charge

Selection Buttons

**IMPORTANT-PLEASE READ:** This guide may include information for suggested customer purchased items, and component parts on some vehicles that may be optional or not available on your particular model. The inclusion of this information does not indicate or imply that the components or options were at any time available, or can be retrofitted to your vehicle, and is subject to change. If you, the purchaser, have any questions or concerns regarding this Basic Operation Guide, or information contained in the various individual appliance or component manufacturer's instructions, please contact your selling dealership or TMC Customer Care at (877) 855-2867 (EST-Indiana) for assistance. Component part and appliance manufacturers issue limited warranties covering portions of the vehicle not covered under the TMC Limited Warranty.
